The Bible has much to say about leadership. It contains proverbs, quotes and stories that illustrate time tested principles that result in powerful leadership. Some of these principles are obvious and easy to understand. Others are more subtle and require much thought and analysis. In either case, they are valuable and should be sought like a treasure. When applied, these principles not only result in powerful leadership, they have utility in a more meaningful and fulfilled life. The process of diligently going through this six week devotional process has life changing potential.
